CARE

These are the most important years of a child's development and YOU can make a lifetime impact by providing quality licensed care. Your licensed childcare program can support the local economy as a whole by allowing parents to work/return to work.

You already have a childcare business, caring for up to 4 children under the Friends/Family/Neighbors licensing. But have you considered what growing your business to the next level would look like? Why and how that would work?

#### Benefits of growing your business to a family license, caring for up to 8 children:

**Best Beginnings Scholarship** - As a licensed program, you'll be able to accept Best Beginnings funds.

**CCDF reimbursement** - Child and Adult Care Food program

**Financial incentives** - The Nurturing Center offers \$500-\$1000 financial incentives for new program start-up and scaling from a FFN to a licensed family(2) or larger child care program.

**Support, information, & Emergency Planning** from the Nurturing Center

**Referrals** from Nurturing Center - As the Nurturing Center receives inquiries for available child care spaces, they are only referred to licensed care programs.

**Reduced Liability** - You'll be operating a quality program where you're taking proper measures to ensure child and facility safety.

**Existing business space** - you may already be able to utilize your existing home commercial space (25¢/per child)

The program benefits listed in this report were in effect until the program expiration of March 31st, 2024. Please contact The Nurturing Center for information about the status of the program.
