childcare than
they work

These are the most important years of a child's development and YOU can make a *positive* impact by providing quality, licensed care. Your licensed childcare program can support the local economy as well as by allowing parents to work more at work.

Benefits of launching a childcare business:

- Financial Stability** - You'll experience greater financial stability by planning your childcare program as a business with a business plan.
- Earn While You Stay Home with your Kids** - You'll be able to stay home with your children while making money.
- Business Planning** - By planning your entry into the business of childcare, your work invested in the beginning will help identify potential or uncomfortable situations around the cost of care down the road. You'll save your business knowing the amounts that you'll need to charge to cover your salary and expenses, plan for the unexpected and to earn a profit while operating a high-quality childcare program.
- Needed Service** - Childcare is in high demand in the Flathead Valley. Families are seeking care for children of all ages so that parents and family members can return to the workforce.
- Best Beginnings Scholarship** - As a licensed program, you'll be able to accept Best Beginnings funds.
- CAITP reimbursement** - Child and Adult Care Food program.
- Financial Incentives** - The Nurturing Center offers \$500-\$1000 financial incentives for new program start-up.
- Support, Information, & Emergency Planning** from the Nurturing Center.
- Referrals from Nurturing Center** - As the Nurturing Center receives inquiries for available childcare spaces, they are only referred to licensed care programs.
- Reduced Liability** - You'll be operating a quality program where you're taking proper measures to ensure child and facility safety.
- Existing business space** - you may already be able to utilize your existing home/commercial space (25¢ per sq. ft.)
