SERVICES TO ADULTS CAN
BE PREVENTED

These are the most important years of a child's development and YOU can make a lifetime impact by providing quality licensed care. Your licensed childcare program can support the local economy as well as by allowing parents to work (return to work).

You already have a childcare business, but have you considered what you can gain by growing to a Group-sized (15) business?

Benefits of operating a licensed Group (15) childcare business:

Best Beginning Scholarship - As a licensed program, you'll be able to accept best beginning funds.

CECF reimbursements - Child and Adult Care Food program

Financial Incentives - The Nurturing Center offers \$100-\$3000 financial incentives for new program start up.

Support, Information, & Emergency Planning from the Nurturing Center

Referrals from Nurturing Center - As the Nurturing Center receives inquiries for available childcare spots, they are only referred to licensed care programs.

Reduce Liability - You'll be operating a quality program where you're taking proper measures to insure child and facility safety.

Existing business space - you may already be able to utilize your existing home/commercial space (20k per child)

Next Level - Moving to the next level and having your own high-quality business is setting the foundation for future business growth.

Increased Financial Stability - You can have increased financial stability by scaling your business.
